

BUILD PROFITS INTO YOUR HOMES WITH DESIRABLE TECHNOLOGY SOLUTIONS

Today's home buyers want more from their homes than ever before. They want technology solutions integrated into their daily lives. Now you can provide them with an electronic lifestyle, featuring home entertainment, one-touch convenient control, networking and security. All of our electronic solutions will seamlessly integrate with your design and construction plans.

By partnering with us, you are positioned to financially benefit from these sophisticated additions. As your widely respected technology provider, we have a proven formula for success, guaranteed to increase your bottom line. Whether you are a custom builder, spec builder or tract builder, we will work with you to ensure your homes are pre-wired correctly, on schedule and within budget. Our design and installation team pays special attention to critical details every step of the way. Some technology solutions we offer include:

Home Theater and Media Centers

Music Everywhere

Lighting Control

Whole-House Video

Home Monitoring

Computer Networking

Home Automation

To help sell technology solutions, our sales specialists will meet with your home buyers to explain the upgrade options or custom solutions available. We will review the installation process so that they feel completely comfortable. After the installation is complete, we will ensure your home buyers know how to operate their system with ease.

Call us today to discuss technology solutions and the integration process. We offer a complete marketing program to facilitate sales. Now is the time to distinguish yourself from other builders and win buyers by elevating the value of your homes.
